

The Good Life Club

Educo®: To Draw out Your Life and Lifestyle from Within.

May 2010.

Dear Good Life Club Member,

We have organized a meeting for you on Sunday May 23rd in the City West Hotel, Dublin. This meeting was very much encouraged by the people who attended the last 2 Mind Master Seminars (known as the Intelligence Seminar) as they really felt to share their understanding and this really amazing new material with you.

Tony has sent you some of his most up-to-date and amazing material that I know you will want to hear a few times over so that you can put it into practice. It is really the first step in a totally new and simple format to follow and then put into practice. Couldn't be simpler, just use it and see the difference instantly in your Life.

Please make sure to bring a note pad and pen, as you will definitely want to make notes.

The meeting starts at 1pm sharp. Make sure not to miss any part of this very electrifying and inspirational day, which will be shared between the material and the four speakers. Each Speaker will give you a short explanation of their understanding and how it works for them in real life. They will speak at different intervals during the day.

Lots of Love,
Mary.

Here are a few words from Michael McCarthy, one of the speakers...
'The Mind Masters from the last 2 'Intelligence' seminars with Tony are SO excited & passionate about the material, that we felt compelled to meet up with you all to share and help each other understand this Universal Intelligence. And more importantly to put it into ACTION in all our lives ... with REAL RESULTS!'
